

KEIS | GEORGE LLP

ATTORNEYS AT LAW

ABOUT KEIS GEORGE

Founded in 1985, Keis George is a subrogation law firm representing insurance companies throughout the United States. We litigate in state and federal courts in the following areas: Large Loss Property; Commercial and Residential Fires; Workers' Compensation; Construction Defect; Gas Explosions; Product Liability; Trucking and Transportation; and Commercial Collections.

Through our Second Look Program, we can improve your ratio of files closed with no recovery by identifying claims with subrogation potential and proposing a plan to work those claims to recovery. Our Second Look Program helps clients capitalize on missed subrogation opportunities. As there is no cost to review a file, send it in before you close it out.

Keis George Reports, our Client Portal, is secure proprietary software that helps clients mine big data with little effort. Client Portal offers clients detailed status updates and real time file information with the click of a mouse. Clients may access the portal 24/7 with their user name and password from any electronic device in the world.

Early Involvement is a strategic, investigative process to help field adjusters manage the subrogation side of a large loss claim. The moment a large loss is reported, our attorneys immediately make preparations to investigate the loss onsite while our paralegals acknowledge and setup the claim. Once onsite, our attorneys use various tactics to ensure a good claim is a recoverable claim.

At Keis George, we have the resources to confront complex claims, provide highly personalized attention, and offer a competitive fee structure. Clients can expect superior case management, information security, and increased recoveries. To take advantage of the capabilities of a national law practice with the consideration of a local firm, allow Keis George to redefine what it means to recover your money faster.
